

IT STRATEGIC PLAN

Student Name

Workplace/Organisation

Date Prepared

A. EMERGING TECHNOLOGIES

EMERGING TECHNOLOGY 1

This must be the same emerging technology as the one identified in the previous assessments.

Assessor Instructions: This must be the same identified emerging technology in the previous assessments.

A. Strategy

This must include a brief overview of the plan of action to prepare the organisation for the emerging technology.

[Approximate word count: up to 50 words]

Assessor Instructions: This must include a brief overview of the plan of action to prepare the organisation for the emerging technology.

For example, if the student identified generative AI as an emerging technology, their response can be using a phased approach, gradually scaling up integration across the organisation.

B. Organisational Objectives Based on the Strategy

(At least two (2) objectives)

Assessor Instructions: This must include at **two** organisational objectives based on the described strategy.

i.

ii.

C. Necessary Changes Required to Current Organisational Technologies

[Approximate word count: up to 50 words]

Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.

i.

ii.

D. Action Items and Considerations

Action Items Based on the Changes	Considerations			
<p>Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.</p>	<p>Assessor Instructions: This must include factors that will guide the execution of the identified action item.</p>			
	Person Responsible	Resources Required	Expected Outcome	Timeline
	<p>Assessor Instructions: This be the individual within the organisation who is assigned the responsibility for the identified action item.</p>	<p>Assessor Instructions: This must include materials, personnel, or any other elements necessary to carry out the identified action item.</p>	<p>Assessor Instructions: This must be the anticipated result upon the completion of the identified action item.</p>	<p>Assessor Instructions: This must include the schedule within which the specific action item is expected to be completed.</p>

		ii.		
b.		i.		
		ii.		

ICTICT426 - Identify and evaluate emerging technologies and practices

EMERGING TECHNOLOGY 2

This must be the same emerging technology as the one identified in the previous assessments.

Assessor Instructions: This must be the same identified emerging technology in the previous assessments.

A. Strategy

This must include a brief overview of the plan of action to prepare the organisation for the emerging technology.

[Approximate word count: up to 50 words]

Assessor Instructions: This must include a brief overview of the plan of action to prepare the organisation for the emerging technology.

For example, if the student identified generative AI as an emerging technology, their response can be using a phased approach, gradually scaling up integration across the organisation.

B. Organisational Objectives Based on the Strategy

(At least two (2) objectives)

Assessor Instructions: This must include at **two** organisational objectives based on the described strategy.

i.

ii.

C. Necessary Changes Required to Current Organisational Technologies

[Approximate word count: up to 50 words]

Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.

i.

ii.

ICTICT426 - Identify and evaluate emerging technologies and practices

D. Action Items and Considerations				
Action Items Based on the Changes	Considerations			
<p>Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.</p>	<p>Assessor Instructions: This must include factors that will guide the execution of the identified action item.</p>			
	Person Responsible	Resources Required	Expected Outcome	Timeline
	<p>Assessor Instructions: This be the individual within the organisation who is assigned the responsibility for the identified action item.</p>	<p>Assessor Instructions: This must include materials, personnel, or any other elements necessary to carry out the identified action item.</p>	<p>Assessor Instructions: This must be the anticipated result upon the completion of the identified action item.</p>	<p>Assessor Instructions: This must include the schedule within which the specific action item is expected to be completed.</p>
a.		i.

b.		i.		
		ii.		

ICTICT426 - Identify and evaluate emerging technologies and practices

EMERGING TECHNOLOGY 3

This must be the same emerging technology as the one identified in the previous assessments.

Assessor Instructions: This must be the same identified emerging technology in the previous assessments.

A. Strategy

This must include a brief overview of the plan of action to prepare the organisation for the emerging technology.

[Approximate word count: up to 50 words]

Assessor Instructions: This must include a brief overview of the plan of action to prepare the organisation for the emerging technology.

For example, if the student identified generative AI as an emerging technology, their response can be using a phased approach, gradually scaling up integration across the organisation.

B. Organisational Objectives Based on the Strategy

(At least two (2) objectives)

Assessor Instructions: This must include at **two** organisational objectives based on the described strategy.

i.

ii.

C. Necessary Changes Required to Current Organisational Technologies

[Approximate word count: up to 50 words]

Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.

i.

ii.

ICTICT426 - Identify and evaluate emerging technologies and practices

D. Action Items and Considerations				
Action Items Based on the Changes Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.	Considerations Assessor Instructions: This must include factors that will guide the execution of the identified action item.			
	Person Responsible Assessor Instructions: This be the individual within the organisation who is assigned the responsibility for the identified action item.	Resources Required Assessor Instructions: This must include materials, personnel, or any other elements necessary to carry out the identified action item.	Expected Outcome Assessor Instructions: This must be the anticipated result upon the completion of the identified action item.	Timeline Assessor Instructions: This must include the schedule within which the specific action item is expected to be completed.
a.		i.		
		ii.		
b.		i.		
		ii.		

ICTICT426 - Identify and evaluate emerging technologies and practices

B. EMERGING PRACTICES

EMERGING PRACTICE 1

This must be the same emerging practice as the one identified in the previous task.

Assessor Instructions: This must be the same identified emerging practice in the previous assessments.

A. Strategy

[Approximate word count: up to 50 words]

Assessor Instructions: This must include a brief overview of the plan of action to prepare the organisation for the emerging practice.

B. Organisational Objectives Based on the Strategy

(At least two (2) objectives)

Assessor Instructions: This must include at **two** organisational objectives based on the described strategy

i.

ii.

C. Necessary Changes Required to Current Organisational Practices

[Approximate word count: up to 50 words]

Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.

i.

ii.

ICTICT426 - Identify and evaluate emerging technologies and practices

D. Action Items and Considerations				
Action Items Based on the Changes	Considerations			
<p>Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.</p>	<p>Assessor Instructions: This must include factors that will guide the execution of the identified action item.</p>

b.		i.		
		ii.		

ICTICT426 - Identify and evaluate emerging technologies and practices

EMERGING PRACTICE 2

This must be the same emerging practice as the one identified in the previous assessments.

Assessor Instructions: This must be the same identified emerging practice in the previous assessments.

A. Strategy

[Approximate word count: up to 50 words]

Assessor Instructions: This must include a brief overview of the plan of action to prepare the organisation for the emerging practice.

B. Organisational Objectives Based on the Strategy

(At least two (2) objectives)

Assessor Instructions: This must include at **two** organisational objectives based on the described strategy

i.

ii.

C. Necessary Changes Required to Current Organisational Practices

[Approximate word count: up to 50 words]

Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.

i.

i.

ICTICT426 - Identify and evaluate emerging technologies and practices

D. Action Items and Considerations				
Action Items Based on the Changes Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.	Considerations Assessor Instructions: This must include factors that will guide the execution of the identified action item.			
	Person Responsible Assessor Instructions: This be the individual within the organisation who is assigned the responsibility for the identified action item.	Resources Required Assessor Instructions: This must include materials, personnel, or any other elements necessary to carry out the identified action item.	Expected Outcome Assessor Instructions: This must be the anticipated result upon the completion of the identified action item.	Timeline Assessor Instructions: This must include the schedule within which the specific action item is expected to be completed.

ICTICT426 - Identify and evaluate emerging technologies and practices

EMERGING PRACTICE 3

This must be the same emerging practice as the one identified in the previous assessments..

Assessor Instructions: This must be the same identified emerging practice in the previous assessments.

A. Strategy

[Approximate word count: up to 50 words]

Assessor Instructions: This must include a brief overview of the plan of action to prepare the organisation for the emerging practice.

B. Organisational Objectives Based on the Strategy

(At least two (2) objectives)

Assessor Instructions: This must include at **two** organisational objectives based on the described strategy

i.

ii.

C. Necessary Changes Required to Current Organisational Practices

[Approximate word count: up to 50 words]

Assessor Instructions: This must include the adjustments that need to be made to existing technologies within the organisation to ensure that the identified objectives are achieved.

i.

ii.

ICTICT426 - Identify and evaluate emerging technologies and practices

D. Action Items and Considerations
