Task 1 – Role-play: Critical Thinking in the Workplace

Task 1 requires you to participate in a role-play and submit a video recording as evidence.

In this role-play you must record yourself and one [1] other person discussing the effectiveness of critical thinking that you used in your Assessment 2, where you used critical thinking skills to resolve work issues. In that assessment, you followed a critical thinking process and addressed the following two work limitations (issues):

- The lack of an overtime policy and procedure to guide administration staff working additional hours during the busy end-of-year tax time; and
- The cost of photocopying documents multiple times at tax time.

Role-play Instructions

In Role-play 1, there are two [2] participants:

1. You - continue your role as an administrative assistant at Ace Finance
2. Michelle, your manager at Ace Finance.

The participant playing Michelle may be resourced using one of the following options:

1. A friend or family member
2. A fellow student who will play the role of a team member. Please contact your fellow students via the Discussion Forum and directly coordinate your role play with them.

Option 1: Friend or family member

Should you complete this task with a friend or family member, you must fully brief the participant, providing them with the context of the meeting, a role outline to play, and the requirements so that they can prepare for the recording.

The friend/family member must state the role and job title they are playing at the start of the recording to inform consent.

Option 2: Fellow student participant

The fellow student participating in the recording must be provided with context to their role and responsibilities in the session and have reviewed the assessment activity and requirements so that they can prepare for the recording.

The student will need to state the role and job title they are playing at the start of the recording to inform consent.

Resources you need

- A device with recording capability (audio and video)
- Internet access
- One [1] participant to role play Michelle
- A quiet indoor location.

Recording instructions

Your role play must be recorded with all participant/s captured in a virtual room using a system such as Zoom, Skype or Teams.

Consent to participate in the recording must be captured for all participants at the start of the meeting. This is achieved by the student reading the following statement at the start of the recording, with all participants replying with their role and job title to inform consent.

"This session/presentation is being recorded for assessment purposes for my course with Swinburne Open Education. This session will be recorded and submitted through my course online learning platform to my Assessor for grading. All participant/s in this session indicate their consent to be included in this recording by stating the role and job title they are playing."

The time taken to capture consent at the start of the recording does not count towards the recording time limit. Include this recording as part of your assessment submission.

Please note: This recording is your submission for this assessment task (Task 1).

Save this recording under the following naming convention before submitting it.
